Bambu API Documentation

Release 2.0.1

Steadman

Sep 27, 2017

Contents

1 About Bambu Comments **3**

2 About Bambu Tools 2.0 **5**

3 Installation **7**

4 Documentation **9**

5 Questions or suggestions? **11**

6 Contents **13**
- 6.1 Settings . . . 13
- 6.2 Haystack . . . 13
- 6.3 Notifications . . . 13

7 API reference **15**
- 7.1 Template tags . . . 15
- 7.2 Models . . . 15

8 Indices and tables **17**

Generic model commenting

CHAPTER 1

About Bambu Comments

This package provides a secure, spam-aware, approval-based commenting system for Django models. Used in conjunction with an Akismet API key, it will keep spam from hitting inboxes, and works with other tools in the Bambu toolset to provide notifications and perform other actions.

Comments are sanitised before being posted, so you don't need to run them through a bunch of filters.

CHAPTER 2

About Bambu Tools 2.0

This is part of a toolset called Bambu Tools. It's being moved from a namespace of `bambu` to its own 'root-level' package, along with all the other tools in the set. If you're upgrading from a version prior to 2.0, please make sure to update your code to use `bambu_comments` rather than `bambu.comments`.

CHAPTER 3

Installation

Install the package via Pip:

```
pip install bambu-comments
```

Add it to your `INSTALLED_APPS` list:

```
INSTALLED_APPS = (
    ...
    'bambu_comments'
)
```

Run `manage.py syncdb` or `manage.py migrate` to setup the database tables.

CHAPTER 4

Documentation

Full documentation can be found at ReadTheDocs.

CHAPTER 5

Questions or suggestions?

Find me on Twitter (@iamsteadman) or visit my blog.

CHAPTER 6

Contents

Settings

COMMENTS_MARKDOWN Filter comment text through Markdown when sanitising (default is `True`)

AKISMET_KEY The Akismet API key for this site

Haystack

If you use *Haystack <http://haystacksearch.org/>*_, you'll find a search index already setup for comments, that includes only approved comments. The index contains the commenter's name and the body of the message.

Notifications

Notifications are provided via Bambu Notifications.

comment_posted This notification fires when a comment is posted on an object

CHAPTER 7

API reference

Template tags
