# **DotsCMS Documentation**

***Release 0.1***

**Cosmin Harangus**

February 21, 2017

<b>1</b>	<b>Introduction to DotsCMS</b>	<b>3</b>
<b>2</b>	<b>User Guide</b>	<b>5</b>
<b>3</b>	<b>Developer Guide</b>	<b>7</b>
<b>4</b>	<b>Reference</b>	<b>9</b>

**DotsCMS** is a Content Management System that allows you to update most information on your website using inline editing, while providing developers with a solid architecture for building any kind of website.

---

## Introduction to DotsCMS

---

- `ref/overview`
- `ref/installation`

---

# User Guide

---

The user guide provides a comprehensive description of how you can use DotsCMS from an administrative point of view. It will walk you through the various functionality that comes with the default installation of the CMS.

- `user/introduction`
- `user/getting-started`
- `user/default-modules`
- `user/default-themes`

---

## Developer Guide

---

The developer guide is the place to start if you want to extend the default DotsCMS functionality or create your own modules.
