## Description

---

**EraseDropBox** is an easy drag and drop files and folders eraser drop box:

Simply drag and drop the items to erase in the box from **EraseDropBox** and press the erasing launching **Erase** button which will erase securely the items, because **EraseDropBox** use the program:

**wipe** for secure files and folders erasing.

You can add items through the **Add** button or remove items with the **Remove** button.

You can clear the content of the **EraseDropBox** with the clear button.

You can navigate into folder contains into the **EraseDropBox** but not remove items contains into an selected folder from the erase list.

Finally you can set the number of passes (files overwriting) of the wanted value with the iteration spinner.

After pressing the **Erase** button it can take time in relationship of the numbers of items to delete and the iteration value. After the erase task is completed the content of the **EraseDropBox** is cleared.

## 1.1 Launching
