# **gemma**

***Release 2020***

**Dec 28, 2019**

---

## Contents:

---

<b>1</b>	<b>Introduction</b>	<b>1</b>
1.1	About the app . . . . .	1
1.2	Requirements . . . . .	1
1.3	Get ready (Windows) . . . . .	1
<b>2</b>	<b>Classic Subnetting</b>	<b>3</b>
<b>3</b>	<b>VLSM Subnetting</b>	<b>5</b>
<b>4</b>	<b>Large networks</b>	<b>7</b>
<b>5</b>	<b>PDF Generation</b>	<b>9</b>
<b>6</b>	<b>Docker</b>	<b>11</b>
<b>7</b>	<b>Deploy</b>	<b>13</b>
<b>8</b>	<b>Indices and tables</b>	<b>15</b>

### 1.1 About the app

It was hard for me but easy at the end to learn about subnetting. I hope this app gives the opportunity to other people to understand the process. I will explain every problem that we can generate for creating subnets.

The sole purpose of `gemma` is to add a *graphical user interface* system functionality and give you the ability to calculate **Subnets**.

**The key features of Gemma are:**

- Classic subnetting
- VLSM
- Large networks

### 1.2 Requirements

1. Django 2.2
2. Python 3.6.5
3. mysqlclient 1.4.6

### 1.3 Get ready (Windows)

- Download [python](#)
- Install `pip`. For windows we get it [here](#)

- Create an environment variable for pip:

```
setx PATH "%PATH%;C:\Python36\Scripts"
```

- Create an isolated environment for python with virtualenv:

```
pip install virtualenvwrapper-win  
mkvirtualenv myproject
```

- Activate the virtualenv:

```
Scripts/activate => windows  
source bin/activate => linux
```

- Install Django with pip

- Install MySQL:

```
For Python 2.7:  
Download it here: http://www.codegood.com/download/10/  
And with our virtualenv activated we do: easy_install file://C:/Users/ORDENADOR_1/  
↳Downloads/MySQL-python-1.2.3.win32-py2.7.exe  
  
For Python 3.6:  
Download it here: https://www.lfd.uci.edu/~gohlke/pythonlibs/#mysql-python  
32 bits refers to Python version and not to our system
```

- Create Django project and migrate the database:

```
django-admin startproject src  
python manage.py migrate  
python manage.py startapp subnetting
```

Now we are ready to start out project!

## CHAPTER 2

---

### Classic Subnetting

---

## CHAPTER 3

---

### VLSM Subnetting

---

## CHAPTER 4

---

### Large networks

---

## CHAPTER 5

---

### PDF Generation

---

## CHAPTER 6

---

Docker

---

## CHAPTER 7

---

Deploy

---

## CHAPTER 8

---

### Indices and tables

---

- `genindex`
- `modindex`
- `search`
