<b>6</b>	<b>System and Network Administration</b>	<b>13</b>
<b>7</b>	<b>Your own Linux Distribution</b>	<b>15</b>
<b>8</b>	<b>Indices and tables</b>	<b>17</b>

This collection of notes aims to be a well rounded introduction to Linux for a programmer moving from non-Linux operating systems. Fedora Linux is used as the distribution of choice in these notes.

Contents:

---

**Fedora Linux**

---

---

**Installing Fedora 18**

---

---

**Mastering the Command Line**

---

## **Software Administration**

---

### **4.1 Multimedia**

### **4.2 Games**

## Programming on Linux

---

**5.1 Editors**

**5.2 IDE**

**5.3 Python**

**5.4 Ruby**

**5.5 C/C++**

**5.6 Version Control**

---

**System and Network Administration**

---

---

## **Your own Linux Distribution**

---

## **Indices and tables**

---
