
isoprene-pumpjack Documentation

Release 0.0.1

Tom Milligan

Mar 29, 2017

Contents:

1	Installation	1
1.1	Use	1
2	API	3
2.1	Full API	3
3	Indices and tables	5
	HTTP Routing Table	7

CHAPTER 1

Installation

Install with pip:

```
pip install isoprene-pumpjack
```

Use

To run with Gunicorn prod server:

```
gunicorn isoprene_pumpjack.wsgi:app
```

To run with Flask dev server:

```
isoprene-pumpjack
```

This API documentation is automatically generated.

Full API

- GET /dev/elastic/set/dolphins**
Create and load dolphins index
- GET /dev/neo/set/dolphins**
Drop database and upload dolphins JSON data into Neo4j
- GET /dev/elastic/search**
Get documents containing a single dolphin by id and label
- GET /dev/elastic/reset**
Drop database
- GET /dev/elastic/seed**
Get documents containing a single dolphin by id and label
- GET /dev/neo/fullgraph**
Get JSON representing full graph
- GET /dev/neo/reset**
Drop database
- GET /configuration/synaptic-scout**
Get JSON config for synaptic-scout
- GET /**
Get JSON representing endpoints
- GET /dev/neo/subgraph/ (string: central_node_id)**
Get JSON representing subgraph centered on a single node
- GET /explore/subgraph/ (string: central_node_id)**
Get JSON representing subgraph centered on a single node

CHAPTER 3

Indices and tables

- `genindex`
- `modindex`
- `search`

HTTP Routing Table

/

GET /,3

/configuration

GET /configuration/synaptic-scout,3

/dev

GET /dev/elastic/reset,3

GET /dev/elastic/search,3

GET /dev/elastic/seed,3

GET /dev/elastic/set/dolphins,3

GET /dev/neo/fullgraph,3

GET /dev/neo/reset,3

GET /dev/neo/set/dolphins,3

GET /dev/neo/subgraph/(string:central_node_id),
3

/explore

GET /explore/subgraph/(string:central_node_id),
3
