
JsonLikeFilename Documentation

Release 0.2.0

Daniel

Apr 27, 2018

Contents:

1	Indices and tables	3
----------	---------------------------	----------

The JsonLikeFilename package do read a filename with a special format, convert it into a json string and load it into a variable. This enables to read parameters from the filename.

CHAPTER 1

Indices and tables

- `genindex`
- `modindex`
- `search`
