Contents

1	Bot Documentation	1
2	COGs Documentation	3
2.1	Database	4
2.2	Image Manipulation	4
2.3	Profile	4
2.4	Steams	4
2.5	Support	4
2.6	Utilities	4
2.7	Music	4
2.8	Twitch	4
2.9	Troll	4
2.10	Debug	4
3	Utils Documentation	5
3.1	Checks	5
3.2	Databases	5
3.3	Draw	5
3.4	Email Manager	5
3.5	Parser	5
3.6	Steam Manager	5
4	Frequently Asked Questions	7
4.1	General	7
4.2	Database	8
4.3	Parser Util	8
5	Indices and tables	9

CHAPTER 1

Bot Documentation

Here I will explain how the bot starts up and more

Note: The document can change immensely as I program more features!

Warning: I don't write many docs therefor some of the items may be explained wrong or badly.

I don't have anything to send for now. Installation Guides are on the repositories wiki!

CHAPTER 2

COGs Documentation

The following is the documentation on how the cogs work!

Note: I will have an example.py cog that won't be imported but will be explaining all of the things I repeat in all the other cogs so that I can stop them from over filling the Documentation

2.1 Database

2.2 Image Manipulation

2.3 Profile

2.4 Steams

2.5 Support

2.6 Utilities

2.7 Music

2.8 Twitch

2.9 Troll

2.10 Debug

CHAPTER 3

Utils Documentation

3.1 Checks

3.2 Databases

3.3 Draw

3.4 Email Manager

3.5 Parser

3.6 Steam Manager

CHAPTER 4

Frequently Asked Questions

This is a list of Frequently Asked Questions regarding the VectorBot and its cogs and utils.

Questions

- *General*
 - *MultiGuild Splash Support*
- *Database*
 - *Ask a question!*
- *Parser Util*
 - *Why does some of the Guild[Members/Roles/GuildChannels] have blank perms or configs*

4.1 General

General questions!

4.1.1 MultiGuild Splash Support

This is will not be programmed in because of many things.

I will name some:

- **High Storage**
 - A user will have a banner per guild
- **High CPU/Memory Usage**
 - Each time a user is updated he will get a new splash

I have more, I won't and will not script MultiGuild Splash Support. If you want me to do it as an example then I will. Even then it will not be enabled even in dev mode!

4.2 Database

Questions regarding database logging will answerd here!

4.2.1 Ask a question!

I have no questions right now.

4.3 Parser Util

Questions regarding `cogs.utils.parser.Parser`

4.3.1 Why does some of the Guild[Members/Roles/GuildChannels] have blank perms or confs

That is to do with config and permission handleing for each guild separately.

CHAPTER 5

Indices and tables

- `genindex`
- `modindex`
- `search`
