
ALPS-CCD Documentation

Release 0.0.1

Jan Eike von Seggern

December 19, 2014

1	Indices and tables	3
----------	---------------------------	----------

The ALPS-CCD package contains tools to open CCD frames saved in binary formats (currently FITS, SPE and also greyscale PNG). In addition, it contains tools to normalize and analyze CCD frames:

- `ccd.io` for opening and storing data.
- `ccd.analysis` for analysis tools.

The source code is available on [github](#).
