1	Installation	3
----------	---------------------	----------

Essential templatetags for Django.

CHAPTER 1

Installation

Install with pip:

```
pip install django-essential-templatetags
```

Then declare the app in your settings.py

```
INSTALLED_APPS = [  
    ...  
    'essential_templatetags',  
]
```

To use the templatetags, add in your template:

```
{% load essential_templatetags_extra %}
```
