Release 0.1

Aug 18, 2019

Contents

1	Requirements	3
2	Getting It	5
3	Installation	7
4	Using	9
5	Update	11

CHAPTER 1

Requirements

- Python 3.6+
- A supported version of Django (currently 2.2.4)

CHAPTER 2

Getting It

You can get Django Tasker Exchange Rate by using pip:

```
$ pip install django-tasker-exchangerate
```

If you want to install it from source, grab the git repository from GitHub and run setup.py:

```
$ git clone git://github.com/kostya-ten/django_tasker_exchangerate.git
$ cd django_tasker_exchangerate
$ python setup.py install
```

CHAPTER 3

Installation

To enable `django_tasker_exchangerate` in your project you need to add it to `INSTALLED_APPS` in your projects `settings.py`

```
INSTALLED_APPS = (  
    # ...  
    'django_tasker_exchangerate',  
    # ...  
)
```

CHAPTER 4

Using

```
from django_tasker_exchangerate import exchangerate
exchange = exchangerate.CBRF()
model = exchange.model()
result = model.objects.get(last=True, code="USD", source=1)
print(result.value)
```

CHAPTER 5

Update

You can update the exchange rate using cron

```
14 00 * * * root test -x manage.py && manage.py exchangerate --  
↪action=cbrf
```
