2	Development informations	3
3	Changelog	5
3.1	1.2	5
3.2	1.1	5
3.3	1.0	5

Brain shopping

1.1 Purpose

The **shopping** brain package allows to manage a shopping list : add and remove items, clean the list, get the list.

1.2 Dependencies

There is no dependency.

1.3 Brain configuration

There is no configuration option for this package.

1.4 How can I see the this brain package allow me to do ?

In Domogik administration, just go on the corresponding client and look at the **Brain details** page.

Development informations

This package uses some butler libraries for list management. Doing this allow the butler to store the data wherever it wants (database, files,...) and the package will not have to focus on data storage but only to the list management.

Changelog

3.1 1.2

- Small improvement for can_you feature (fr_Fr)

3.2 1.1

- This release needs Domogik 0.5.2 at least!
- Improve the fr_FR language

3.3 1.0

- Package creation. Domogik 0.5.0 required.
