
duniterpy Documentation

Release 0.30.5

caner & inso

Aug 12, 2018

Contents

1	Installation	3
2	Source code	5
3	Contents:	7
3.1	dunitерpy	8
4	Indices and tables	9

dunitery is a library to develop an application for dunitery. dunitery helps to handle the following problem : * Request Basic Merkle API provided by dunitery nodes * Request nodes in a non-blocking way * Handle dunitery signing keys

CHAPTER 1

Installation

Simply type:

```
$ pip install dunitерpy
```

CHAPTER 2

Source code

Sources can be found at <https://github.com/duniter/duniter-python-api>

Contributions are welcome.

CHAPTER 3

Contents:

3.1 dunitерpy

3.1.1 dunitерpy package

Subpackages

dunitерpy.api package

Subpackages

dunitерpy.api.bma package

Submodules

dunitерpy.api.bma.api module

dunitерpy.api.bma.blockchain module

dunitерpy.api.bma.network module

dunitерpy.api.bma.node module

dunitерpy.api.bma.tx module

dunitерpy.api.bma.ud module

dunitерpy.api.bma.wot module

dunitерpy.api.bma.ws module

8

Module contents

Submodules

CHAPTER 4

Indices and tables

- `genindex`
- `modindex`
- `search`
