
findMarcRecordsInOLE Documentation

Release 2.0.0

Tyler Danstrom

May 29, 2018

Contents

1 Indices and tables

3

This is a command-line tool intended to enable developers at UChicago library to search for MARC records in OLE and get back the up-to-date full records matching their query.

After installation, you can run the CLI application by typing

```
find_records -h
```

```
usage: find_records [-h] [--version] {show_lookups,searching} ...
```

positional arguments: {show_lookups,searching} how to retrieve valid lookup labels

optional arguments:

-h, --help	show this help message and exit
--version	show program's version number and exit

CHAPTER 1

Indices and tables

- [genindex](#)
- [modindex](#)
- [search](#)
