# fluentcms-privatenotes Documentation

*Release 1.0*

**Diederik van der Boor**

May 25, 2016

Contents

Adding Sticky-notes in the admin interface for content.

PRIVATE NOTE

At this page, we still need to add a custom design.

- handy, keeping track of notes at the page

These notes are only visible for you as administrator

# Installation

First install the module, preferably in a virtual environment. It can be installed from PyPI:

```
pip install fluentcms-privatenotes
```

First make sure the project is configured for django-fluent-contents.

Then add the following settings:

```
INSTALLED_APPS += (
    'fluentcms_privatenotes',
)

FLUENT_CONTENTS_PLACEHOLDER_CONFIG = {
    'slot name': {
        'plugins': ('PrivateNotesPlugin', ...),
    },
}
```

The database tables can be created afterwards:

```
./manage.py migrate
```

## 1.1 Contributing

If you like this module, forked it, or would like to improve it, please let us know! Pull requests are welcome too. :-)
