Forge-python-SDK is a software developer kit that helps python developer to use Forge framework to build their own decentralized applications. If you have any questions or suggestions, please go to [Github](#) . The team will be more than willing to help.

# CHAPTER 1

---

## Getting Started

---

1. Follow [Forge Installation](#) to install Forge on your device
2. Install forge-python-sdk with [Python SDK Guide](#)
3. Start your journey with some [Python Tutorials](#)

## **1.1 Chain**

## **1.2 Event**

## **1.3 State**

## **1.4 Statistic**

## **1.5 Wallet**

## **1.6 Helper RPC Calls**

## **1.7 Configuration**

## **1.8 Hasher**

## **1.9 ED25519Signer**

## **1.10 Secp256k1Signer**

## **1.11 AbtDid**

## **1.12 Crypto**

## **1.13 Conversion**

## **1.14 Protos**

## **1.15 Transaction**

## **1.16 Transaction Types**
