
hep_ml Documentation

Release 0.2

Alex Rogozhnikov and contributors

July 24, 2015

1	Modules:	3
2	Contents:	5
2.1	Gradient boosting	5
2.2	Losses (loss functions for gradient boosting)	5
2.3	uBoost	5
2.4	Metric functions	5
2.5	Neural networks	5

hep_ml is machine learning library filled with methods used in high energy physics. Classifiers from **hep_ml** are **sklearn**-compatible.

Modules:

- Gradient boosting and loss functions
- uBoost
- Metric functions
- Neural networks

Contents:

2.1 Gradient boosting

2.2 Losses (loss functions for gradient boosting)

2.3 uBoost

2.4 Metric functions

2.5 Neural networks
