CHAPTER 1

Usage

Interactive setup for your machine:

```
$ pip install --upgrade impactlab_user
$ impactlab-user setup all
```

You'll need to be ready to configure all Climate Impact Lab tools, specifically:

- OSDC griffin access keys (get these from griffin)
- AWS access keys (get these from Mike or Justin)

Individual subcommands can be run by specifying them:

```
setup subcommands:
  all
  aws
  brc
  datafs
  osdc
  osdc_data
  ssh_keys
```
