
INF-BIOx121 Documentation

Release 1.0

Lex Nederbragt

Dec 18, 2018

Contents

This is the website of the PhD/MSc course **High Throughput Sequencing technologies and bioinformatics analysis** INF-BIO-5121/9121 that was taught at the University of Oslo from 2012 to 2017.

From 2018, the course changed format under a new name, “Genome Sequencing Technologies, Assembly, Variant Calling and Statistical Genomics”, and received a new course code. The material for that course can be found at the website for [IN-BIOS5000/9000](#).
