
pagerduty-api Documentation

Release 0.4-dev

Micah Hausler

January 12, 2015

1	Why?	3
2	Installation	5
3	Requirements	7

pagerduty-api is a package for easily interacting with PagerDuty's API.

Why?

There are several other libraries interacting with the PagerDuty API, however none of them include tests and documentation.

Installation

To install the latest release, type:

```
pip install pagerduty-api
```

To install the latest code directly from source, type:

```
pip install git+git://github.com/ambitioninc/pagerduty-api.git
```

Requirements

- Python 2.7, 3.3, 3.4
- requests \geq 2.0.0
