PyLadies Vancouver Documentation

PyLadies Vancouver

May 24, 2018

Contents

PyLadies is an international mentorship group with a focus on helping more women become active participants and leaders in the Python open-source community. Our mission is to promote, educate and advance a diverse Python community through outreach, education, conferences, events and social gatherings.

At PyLadies Vancouver, we welcome people who have never programmed before, experienced programmers, and everyone in between. We welcome all women, inclusive of trans women. Further we would like to extend a special invitation to nonbinary folks, as many (but not all) of the oppressions facing women in our industry are also experienced by nonbinary individuals. Persons with any gender identity are welcome to attend our meetups, but should respect that PyLadies Vancouver is a place where women's voices are centered.

Code of Conduct

Everyone attending PyLadies Vancouver are expected to abide by our Code of Conduct.

Resources

4.1 Meetup Formats

We have three meetup formats: Code Jams, Talk nights, and Workshops.

4.1.1 Code Jam

Join us for a chance to practice your programming skills on some coding challenges, puzzles or pet projects. All skill levels are welcome!

This is unstructured. Anyone can come with their own project, or pair with others. Bring your own laptop.

4.1.2 Talk nights

A night of talks from our community! Talks can be 5 minutes, 10 minutes, conference talk practise. We love first-time speakers!

We are always looking for speakers! Please fill in the Speaking at PyLadies Vancouver form if you're interested in speaking at our meetup.

Check the *talks* page for a list of past talks.

4.1.3 Workshops

Hands-on tutorial with varying skill levels.

We are always looking for speakers! Please fill in the Workshop at PyLadies Vancouver form if you're interested in leading a workshop at our meetup.

Check the *workshops* page for a list of past workshops.

4.2 Talks

A list of past PyLadies Vancouver talks.

We are always looking for speakers! Please fill in this form and we'll get back to you.

4.3 Workshops

A list of past PyLadies Vancouver workshops.

We are always looking for speakers! Please fill in this form and we'll get back to you!

4.4 Sponsoring

Thank you for your interest in sponsoring and hosting Vancouver PyLadies. We several formats: talk nights, workshop, and code jams. Checkout the *formats* page for more details.

For code jam or workshop, everyone will be using their own laptop, so a venue with tables or a boardroom will work best.

For talk nights, no tables necessary, but enough seating space for up to 30.

For code jams, no projector is necessary. Projector is needed for workshops and talk nights.

Please fill in the Hosting Vancouver PyLadies form to help us plan whether your venue will be suitable for our talk nights, workshop, or code jams.

Our meetup page is at: https://www.meetup.com/PyLadies-Vancouver/

Everyone attending PyLadies Vancouver are expected to abide by our Code of Conduct: https://www.meetup.com/PyLadies-Vancouver/about/

Any questions, please email vancouver@pyladies.com

Thank you to our past and ongoing sponsors:
