<b>3</b>	<b>Indices and Tables</b>	<b>7</b>

Scott Torborg - [Cart Logic](#)

For working with Saleae Logic.

# CHAPTER 1

---

## Quickstart

---

Install it:

```
$ pip install pylogic
```

Use it:

```
>>> from pylogic.api import API
>>> api = API()
>>> api.capture()
```

## 2.1 API Reference

### 2.1.1 Socket API

## 2.2 Contributing

Patches and suggestions are strongly encouraged! GitHub pull requests are preferred, but other mechanisms of feedback are welcome.

PyLogic hopes to have a comprehensive test suite with 100% line and branch coverage, as reported by the excellent `coverage` module. To run the tests, simply run in the top level of the repo:

```
$ tox
```

This will also ensure that the Sphinx documentation builds correctly, and that there are no [PEP8](#) or [Pyflakes](#) warnings in the codebase.

Any pull requests should preserve all of these things.

## CHAPTER 3

---

### Indices and Tables

---

- `genindex`
- `modindex`
