
pytest-faker Documentation

Release latest

August 20, 2015

1	Install pytest-faker	3
2	Example	5
3	License	7

pytest-faker adds faker [fixtures](#) for easy use of [faker](#) for your tests under [pytest](#) runner.

Install pytest-faker

```
pip install pytest-faker
```

Example

An example of `faker` and `pytest` integration.

`tests/test_faker.py`:

```
from faker.generator import Generator

def test_faker(faker):
    """Faker factory is a fixture."""
    assert isinstance(faker, Generator)
    assert isinstance(faker.name(), str)
```
