timemarker Documentation

Release 0.2.0

David Ressman

Jan 29, 2018

Contents:

Usage

To use a simple timemarker:

```python
import timemarker
with timemarker.TimeMarker() as t:
    t.tag("something")
    do_something()

    t.tag("some_other_thing")
    do_some_other_thing()

t.stats()
```

1.1 Examples

```python
>>> with timemarker.TimeMarker() as t:
>>>     t.tag("something")
>>>     do_something()
>>>     t.tag("some_other_thing")
>>>     do_some_other_thing()
>>>
>>> t.stats()
TIME:0.200902s something:0.500 some_other_thing:0.500 start:0.000
```
