September 02, 2016

<b>1</b>	<b>Getting Started</b>	<b>3</b>
<b>2</b>	<b>Remote Controller Keys</b>	<b>5</b>
2.1	keys . . . . .	5
<b>3</b>	<b>Indices and tables</b>	<b>7</b>

Please go through the user guide before operating your S-com, and keep it safe for future reference..

Contents:

---

## Getting Started

---

- **Power Cord** [-] Use standard 230 V 50Hz AC supply to power S-Com using Power cord.
- **ON/OFF indicator** [-] Green L.E.D indicates that S-Com is turned on.
- **IR Sensor** [-] It senses IR signal from IR remote controller.

Remote should be directed towards IR sensor in order to control S-com.

- **VGA out** [-] Connect VGA monitor/display/projector to S-com using this VGA port.
- **3.5mm audio Jack** [-] This jack can be used to connect headsets or external speaker.
- **Speaker** [-] It gives audio output for the music/video that is being played.
- **Ethernet port** [-] It is used to connect S-com to the LAN to browse the internet or to access the network shares.
- **USB ports** [-] Any standard USB keyboard, mouse, camera or external USB storage device can be connected to S-com using these 4 USB ports.
- **Remote Control** [-] Instead of mouse and keyboard you can operate S-com using this remote controller.

---
