
SecKit For Splunk Documentation

Ryan Faircloth/splservices

Oct 09, 2018

Contents:

1	Sub Projects	3
2	Indices and tables	5

The Success Enablement Content Kit (SecKit) project develops prescriptive guidance, and supporting add ons for the Splunk Eco system. Designed to help new implementations start well and existing implementations achive the next insight.

CHAPTER 1

Sub Projects

- [SecKit TA](#) Provide wrapper configuration and detailed guidances for add ons for Splunk
- [SecKit IDM](#) Provide modular dynamic asset and identities for Splunk Enterprise Security

CHAPTER 2

Indices and tables

- `genindex`
- `modindex`
- `search`
