
Semaphore Microservice

Release v0.1

Patrick Lehmann

Sep 27, 2021

GETTING STARTED

1	Installation/Updates	3
1.1	Installation using PIP	3
1.2	Updating using PIP	3

This HTTP-based microservice offers a ReST API to acquire and release resources that are limited with a *semaphore* semantic.

INSTALLATION/UPDATES

1.1 Installation using PIP

```
pip3 install Semaphore-Microservice
```

1.2 Updating using PIP

```
pip3 install -U Semaphore-Microservice
```

1.2.1 Configuration

The configuration is stored in `.semaphore.yml`.

1.2.2 Index

1.2.3 Python Module Index
