
skeletonizer Documentation

Release 0.0.1.dev1+14.g2b4ded6.dirty

Tjerk Vreeken

Feb 26, 2018

1	Contents:	1
1.1	Getting Started	1
1.2	Support	1
1.3	Python API	1
2	Indices and tables	3
	Python Module Index	5

1.1 Getting Started

1.1.1 Installation

Installation is as simple as:

```
pip install skeletonizer
```

1.1.2 Contribute

You can contribute to this code through Pull Request on [GitLab](#). Please, make sure that your code is coming with unit tests to ensure full coverage and continuous integration in the API.

1.2 Support

Raise any issue on [GitLab](#) such that we can address your problem.

1.3 Python API

1.3.1 Network

```
class skeletonizer.network.NetworkObject (name)  
    Bases: object  
    Base class for any objects in the network, like pipes, valves, etc.
```

CHAPTER 2

Indices and tables

- `genindex`
- `modindex`
- `search`

S

`skeletonizer.network`, [1](#)

N

`NetworkObject` (class in `skeletonizer.network`), 1

S

`skeletonizer.network` (module), 1
