
testsuite-prettyprint-traceback

Documentation

Release 0.1.0-alpha

Omer Katz

June 24, 2013

CONTENTS

testsuite-prettyprint-traceback is a nose2 plugin that prettyprints traceback on failures and errors.

Warning: This project is currently released as a prototype. While as far as I know it works it is untested. Please report bugs you find to the [issue tracker](#)

**CHAPTER
ONE**

INSTALLATION

```
pip install testsuite-prettyprint-traceback
```

CONFIGURATION

2.1 Configuration [pretty-print]

`always-on`

Default True
