
Axelrod-Python-Tournament Documentation

Release 0.0.23

Axelrod-Python Project

February 01, 2017

1	Standard Tournaments	3
1.1	Basic Strategies	3
1.1.1	Ranked violin plot	3
1.1.2	Payoffs	3
1.1.3	Evolutionary dynamics	3
1.1.4	Wins	3
1.1.5	Payoff differences	3
1.1.6	Pairwise payoff differences	3
1.2	All Strategies (without cheaters)	4
1.2.1	Ranked violin plot	4
1.2.2	Payoffs	4
1.2.3	Evolutionary dynamics	4
1.2.4	Wins	4
1.2.5	Payoff differences	4
1.2.6	Pairwise payoff differences	4
1.3	All Strategies (including cheaters)	4
1.3.1	Ranked violin plot	4
1.3.2	Payoffs	4
1.3.3	Evolutionary dynamics	4
1.3.4	Wins	5
1.3.5	Payoff differences	5
1.3.6	Pairwise payoff differences	5
1.4	Cheating Strategies	5
1.4.1	Ranked violin plot	5
1.4.2	Payoffs	5
1.4.3	Evolutionary dynamics	5
1.4.4	Wins	5
1.4.5	Payoff differences	5
1.4.6	Pairwise payoff differences	5
2	Noisy Tournaments	7
2.1	All Strategies (without cheaters) and 5% noise	7
2.1.1	Ranked violin plot	7
2.1.2	Payoffs	7
2.1.3	Evolutionary dynamics	7
2.1.4	Wins	7
2.1.5	Payoff differences	7
2.1.6	Pairwise payoff differences	7

This documentation contains the latest results of the full tournament from the [Axelrod-Python project](#).

Click on each type of tournament below to see plots of the results.

Contents:

Standard Tournaments

Contents:

1.1 Basic Strategies

1.1.1 Ranked violin plot

The mean utility of each player.

1.1.2 Payoffs

The pair wise utilities of each player.

1.1.3 Evolutionary dynamics

The evolutionary dynamic of the strategies (based on the utilities).

1.1.4 Wins

The number of wins of each player.

1.1.5 Payoff differences

The payoff differences for each player.

1.1.6 Pairwise payoff differences

The difference of payoffs between pairs of players.

1.2 All Strategies (without cheaters)

1.2.1 Ranked violin plot

The mean utility of each player.

1.2.2 Payoffs

The pair wise utilities of each player.

1.2.3 Evolutionary dynamics

The evolutionary dynamic of the strategies (based on the utilities).

1.2.4 Wins

The number of wins of each player.

1.2.5 Payoff differences

The payoff differences for each player.

1.2.6 Pairwise payoff differences

The difference of payoffs between pairs of players.

1.3 All Strategies (including cheaters)

1.3.1 Ranked violin plot

The mean utility of each player.

1.3.2 Payoffs

The pair wise utilities of each player.

1.3.3 Evolutionary dynamics

The evolutionary dynamic of the strategies (based on the utilities).

1.3.4 Wins

The number of wins of each player.

1.3.5 Payoff differences

The payoff differences for each player.

1.3.6 Pairwise payoff differences

The difference of payoffs between pairs of players.

1.4 Cheating Strategies

1.4.1 Ranked violin plot

The mean utility of each player.

1.4.2 Payoffs

The pair wise utilities of each player.

1.4.3 Evolutionary dynamics

The evolutionary dynamic of the strategies (based on the utilities).

1.4.4 Wins

The number of wins of each player.

1.4.5 Payoff differences

The payoff differences for each player.

1.4.6 Pairwise payoff differences

The difference of payoffs between pairs of players.

Noisy Tournaments

Contents:

2.1 All Strategies (without cheaters) and 5% noise

2.1.1 Ranked violin plot

The mean utility of each player.

2.1.2 Payoffs

The pair wise utilities of each player.

2.1.3 Evolutionary dynamics

The evolutionary dynamic of the strategies (based on the utilities).

2.1.4 Wins

The number of wins of each player.

2.1.5 Payoff differences

The payoff differences for each player.

2.1.6 Pairwise payoff differences

The difference of payoffs between pairs of players.
