
test_RTD Documentation

Andrey Portnoy

Jul 15, 2018

Contents:

1	Introduction	1
2	Indices and tables	3

This is supposed to be an introduction.

```
test.func (arg1, arg2)
```

This is an example documented function.

Parameters

- **arg1** (*whatever*) – Just an argument
- **arg2** (*also whatever*) – Just an argument

Returns **arg** – just the argument again

Return type `whatever`

Notes

This function simply returns its only argument and serves as an example. Now we add another line here to test RTD webhook.

CHAPTER 2

Indices and tables

- `genindex`
- `modindex`
- `search`

F

`func()` (in module `test`), [1](#)
