<b>2 Bank Account</b>	<b>5</b>

The bank module defines the concept of bank and account.

# CHAPTER 1

---

Bank

---

A bank links a party with a BIC.

## CHAPTER 2

---

### Bank Account

---

A bank account is defined by a *Bank* and at least one number.

- The *Bank* is the bank where the account is set.
- The *Owners* are the parties who own the account.
- The *Currency* is the default currency of the account.
- The *Numbers* are the different possible number that identifies the account. There are two types defined by default:
  - IBAN
  - Other
