
tryton*product_cost_fifo* Documentation

Release 4.0

Nov 24, 2018

Contents

The Product Cost FIFO Module add a *FIFO* option in the Cost Method field of the product form.

The cost price of product whose cost price method is *FIFO* will be updated automatically when stock moves coming from a supplier or going to a customer are made. The page [FIFO and LIFO accounting](#) on Wikipedia gives some information about this costing method.
